

Dear Friends in the Lord,

We had a wonderful Easter service here on the 31st. Children and young people took part and the church was packed to capacity. We do pray that the seed sown will bear much fruit.

There has been an acceleration in the process of the selling of the property at the Voice of the Gospel ministries. We met with the buyer last week who informed us that he has managed to sell on the property quicker than expected so will be able to buy the property outright and the whole transaction should be completed by the end of May. Please pray along with us that this will indeed be the case and pray along with us too about what the next step should be regarding the future of the Voice of the Gospel ministries.

The important meeting with the future full time worker in the church on 23/03 went really well and at the moment things seem to be going ahead very positively. We will be meeting with him again along with his wife this coming weekend. He has informed us that he is willing to take on the job if he is fully accepted by the church members so this is most encouraging.

This coming Saturday 06/04 there will be a special evening organised by the "Oasis" group, within the context of Ramadan which ends on the 8<sup>th</sup> of April. Then on the 21/04 the monthly "Oasis" meeting will take place and a special meal will be organised. We do pray for these meetings and for all those invited and that these ex Muslims and those with a Muslim background will be encouraged in their new found faith.

Looking a bit more into the future, on the 8<sup>th</sup> of June DV, another fun day will be organised when friends and neighbours will be invited. This "bridge building" activity met with great success last year and we pray for a time of blessing again.

Again, on a more personal level, Graham meets with the specialist on the 8<sup>th</sup> April. He has had a series of tests and they will be analysed on that occasion. Alison met with the eye specialist recently and he was very pleased with the results of the injections. She has another injection in her eye on the 15<sup>th</sup> of this month and then sees the specialist again on the 3<sup>rd</sup> of June. We praise the Lord for good progress for both of us.

We join in thanking you again for your prayer fellowship with us and in sending our warm greetings in the Lord,

Graham et Alison.
